

REVOLUTIONARY NLP-BASED CAPTURING SOLUTION

Next-generation capture solution for SAP (SaaS) Fuzz-free, all vendor-invoices from PDF to SAP with the highest accuracy

*NLP natural language processing

95% Accuracy

No humans in the loop, 100% machine based

5 seconds turnaround time

SaaS-model: No setup, no customization, no minimum volume, no commitment

Masterdata-less (no vendor master-data nor PO-data upload required)

Direct integration into standard SAP-transactions and the most common AP-automation solutions (e.g. Serrala FS2 AccountsPayable)

S4/HANA Cloud-ready

N:xT Capture for SAP provides unique NLP-based capturing as a service seamlessly into SAP (ECC & S4/HANA). Simply scan vendor-invoices into PDF or forward PDF-invoices to a dedicated mail-address. Within less than 5 seconds, N:xT Capture provides its superb capturing results (95%) to automatically create the respective invoices directly in SAP (FI/MM) and the invoice images will be stored using SAP ArchiveLink, easily accessible for any SAP-user. N:xT Interface for SAP ensures the matching of company code, vendor ID and PO/DO line-items in real-time. Everything is done 100% automatic, no humans in the loop.

Features for Vendor Invoice Processing

- Vendor invoices are sent in PDF format to a customer-specific SMTP-address
- The invoice data is returned within less than 5 seconds directly into the customer's SAP-system using N:xT Interface for SAP
- SAP ArchiveLink-support
- Inbuilt data-validation screen incl. image viewer
- Inbuilt business logic and default configurations to automatically for validation and matching in real-time
- Inbuilt workflow triggers (e.g. business partner data-update)

Real-time validation and matching (example vendor invoice)

- Early duplicate check
- Determination of Company Code
- Vendor-ID identification
- Document type-determination (PO-based vs. Non-PO-based)
- Line-item matching
- Coding proposals for FI documents
- Posting Date-determination
- Autopark/Autopost
- Calculate Tax
- Document-specific update of the FX-Rate if GST is provided in overseas currencies (esp. for Singapore)

SAP Certified and 100% integrated
